ERECTOR

1964 Cat recd 8/65

PATENT OFFICE
DIVISIONS

NEW!

No. 10251 ERECTOR — THE MODEL MAKER'S SET. Over 150 steel parts — in new designs, shapes, brilliant colors — to build and rebuild dozens of fascinating models. Easy-to-follow diagrams help you build a Robot, Revolving Crane, Battleship, Airplane, Space Ship, Elevator — to name only a few. As in all Erector sets, imagination is the only limit. Box is 16½"x10⅛"x1¼", with full-color cover. Packaged 6 to carton, shipping weight 11 lbs.

New pilfer-proof package, shrink wrapped, printed in full color, shows big array of toys each set makes.

ERECTOR
THE YOUNG ENGINEER'S SET
OVER 200 STEEL PARTS
Build—and rebuild all these models... and as many more as you can imagine.

NEW!

No. 10252 ERECTOR — THE YOUNG ENGINEER'S SET. Build — and rebuild — a Rocket Service Tower, Jet Bomber, Radar Installation, Submarine, Mobile Radar Scanner! These are typical of the dozens of all-steel models you can put together with this set, using the time-tested Erector nut-and-bolt building principles. This set gives you more than 200 solid steel parts — new modern girders and bright colored panels for greater realism and versatility. Box is 18¼" x 12¾" x 1¼" with big illustration in full color. Packed 6 per carton, shipping weight 17 lbs.

GILBERT

WORLD'S GREATEST STEEL CONSTRUCTION SET

ERECTOR®

NEW!

No. 10253 ERECTOR — THE BATTERY MOTOR SET. Add exciting action to many operating models with the small but mighty electric motor (which operates on 2 "D" flashlight batteries, not included). More than 290 newly-redesigned steel parts enable you to build a wide variety of models such as the Airplane Ride, Walking Beam Pump, Radar Antenna Array, Rolling Robot and many more — illustrated with easy-to-grasp construction diagrams in manual. But that's only the beginning of what any ingenious young builder can make with this set! Box measures 22¼" x 14⅝" x 1⅞". Full-color cover. Packed 6 per carton, shipping weight 27 lbs.

IF PRODUCT OR PERFORMANCE DEFECTIVE • Good Housekeeping • GUARANTEES REPLACEMENT OR REFUND TO CONSUMER

NEW!

No. 10254 ERECTOR — THE POWERMATIC MOTOR SET. Features the rugged, versatile Powermatic Motor, with three different power take-off shafts — to add fascinating action and automatic operation to such modern all-steel models as Lunar Surface Probe, Mobile Crane (which uses brand new Block & Falls), operating Draw Bridge, Pile Driver, Walking Beam Engine, Radar Scanner, to mention only a few of the interesting models in the instruction manual. Motor operates on 3 volts D.C., using two "D" flashlight batteries (not included). Box is 24⅝" x 17" x 2¼" with cover in full color. Packed 3 per carton, shipping weight 18 lbs.

GILBERT®

WORLD'S GREATEST STEEL CONSTRUCTION SET

ERECTOR®

No. 10127 ERECTOR — THE LUNAR VEHICLE SET. Redesigned pieces open up new horizons in model-making: With this set you can build such ultra-modern devices as Lunar Vehicle, Space Platform, Space Scanner, Radar Scope, Helicopter and many more — with exciting realism never before possible, even with Erector. New Powermatic electric motor has Remote Control Battery Case with reversing switch. Outer box has 2 different full-color illustrations on opposite sides, is 18" x 14¾" x 4". Inner steel box has sliding clear plastic front. Motor uses 2 "D" batteries (not included). Packed 3 per carton, shipping weight 34 lbs.

IF PRODUCT OR PERFORMANCE DEFECTIVE • Good Housekeeping • GUARANTEES REPLACEMENT OR REFUND TO CONSUMER

No. 10128 ERECTOR — THE PLANETARY PROBE SET. Build space era models such as the Planetary Probe, Rocket Service Gantry, Moon Bulldozer, Lunar Transmitters, Dual Inclined Railway, Floating Salvage Crane, etc. You can build these and many more, using the new tapered girders, new plates and shaped pieces plus new Powermatic Motor with Remote Control Battery Case and new ingenious Power-Matic Hoist modeled after those used on ships. Five-color outer carton, 15¼" x 14½" x 7¾"; 2-section inner steel box with sliding clear plastic windows. Motor uses 2 "D" batteries (not included). Packed 1 to carton, shipping weight 22 lbs.

GILBERT®

WORLD'S GREATEST STEEL CONSTRUCTION SET

ERECTOR®

No. 10129 ERECTOR — THE MASTER POWER SET. Build an operating Auto Assembly Line and dozens of other brand new, spectacular Space Age Models plus unlimited models of your own design! It's now made possible with the vast assortment of completely newly-designed girders, plates, shapes, wheels, and gears. Powermatic Motor operates from either Remote Control Battery Case or plug-in Power Pack, both with forward, reverse and off switch. Programmer and new special reversing switch set up an entire automatic sequence of movement in powering models! Powermatic Hoist is also included. Five-color outer carton, 18½" x 14¾" x 8". 2-section inner steel box with sliding clear plastic window. Packed 1 to carton, shipping weight 28 lbs.

No. 10006

No. 10007

IMPORTANT ERECTOR ACCESSORIES

No. 10006 POWER PACK. Transforms 115 volt A.C. house current to 3 volts D.C. for operation of No. 10007 Power-Matic Motor, or any toy or device requiring this voltage. Has reversing switch. Packed 6 per carton, shipping weight 4 lbs.

No. 10007 POWER-MATIC MOTOR. Powerful, rugged, versatile, reversible — operates on 3 volts D.C. from either Remote Control Battery Case or No. 10006 Power Pack. Three power take-off shafts. Packed 6 per carton, shipping weight 3 lbs.

No. 10009 POWER-MATIC PROGRAMMER. It almost thinks! Programs a complete automatic sequence of movements in Erector models. Designed for use with No. 10007 Motor and No. 10008 Hoist. Packed 6 per carton, shipping weight 2½ lbs.

No. 10008 POWER-MATIC HOIST. A superb working miniature of the hoist mechanism used on freighters, giant cranes, docks, etc. Has 2 separate, independently operating drums. For use with No. 10007 Motor and No. 10009 Programmer. Packed 6 per carton, shipping weight 2½ lbs.

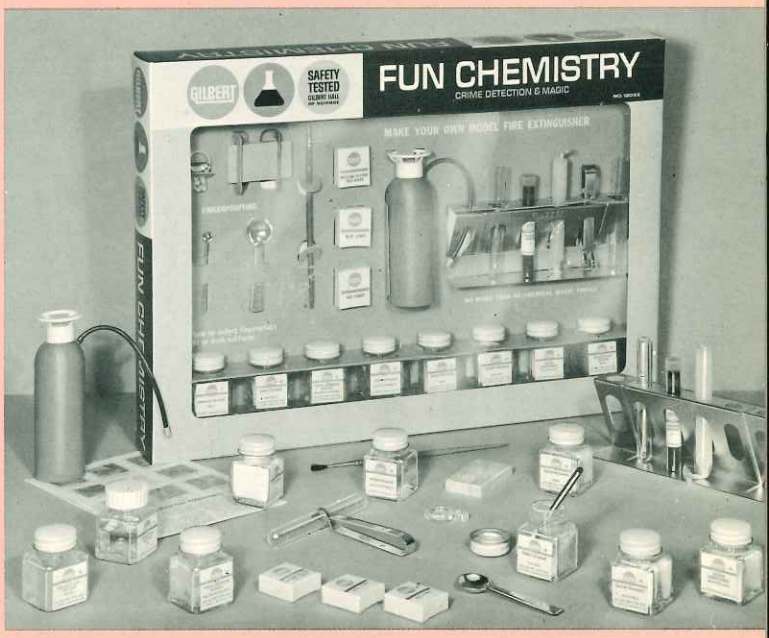
GILBERT CHEMISTRY SETS HAVE BEEN GRANTED THE GOOD HOUSEKEEPING GUARANTY SEAL!

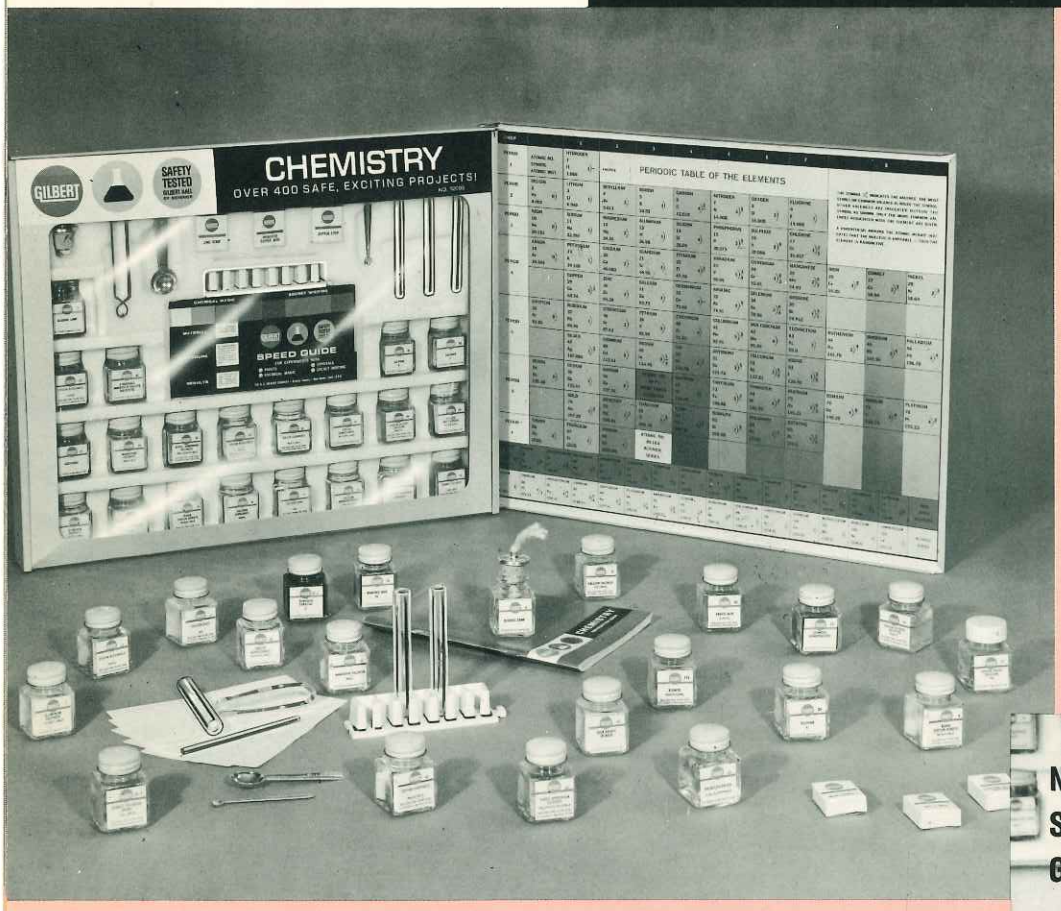
All Gilbert Chemistry Sets now carry this coveted endorsement — powerful assurance to parents of the safety and reliability of these fine science laboratory sets.

No. 12082 FUN CHEMISTRY IN THE HOME. A whole new approach to chemistry sets puts emphasis on the chemistry of common household materials including food testing and analysis. With simple, safe materials you make an "erupting" volcano that really blows its top! Dozens of other fascinating projects. Five-color package with big appealing "product-in-use" picture on one side, clear plastic window on the other. Packed 12 to carton, shipping weight 26 lbs. Box, closed, 16½" x 11½" x 2¾".



No. 12083 FUN CHEMISTRY: Crime Detection and Magic. Make a real operating home Fire Extinguisher with safety-tested chemicals. Do over 50 chemical "magic" tricks and all sorts of other exciting new projects such as crime detection with chemicals — emphasizing things to *do* and *learn*. Appealing 5-color "show-and-tell" package. Packed 6 per carton, shipping weight 15 lbs. Box, closed, 18" x 13" x 2⅛".

CHEMISTRY



NEW!

No. 12095 GILBERT CHEMISTRY LAB. An exciting new set for '64 that features the ingenious new SPEED GUIDE instruction slide-rule, to make projects faster and easier. Safety-tested chemicals, apparatus and equipment to perform over 400 experiments in basic chemistry — plus many special-interest features such as Secret Writing, Chemical "Magic", making paints, growing crystals. Sturdy metal box encloses shock resistant foam plastic storage tray. Periodic Table of Elements printed in color on inside cover. Outer sleeve is printed with big full-color illustration on each side. Complete 96 page manual. Packed 3 per carton, shipping weight 25 lbs. Box, closed, 18″ x 14⅝″ x 1¾″.

NEW!

No. 12096 GILBERT CHEMISTRY LAB. Brand new lab set with more than 500 safe experiments! A tremendous variety of chemicals and equipment for first-hand study of basic chemistry *plus* many highlight features such as Hydroponics (growing plants without soil), Crystal Garden Chamber, precision Balance for accurate weighing — and the new SPEED GUIDE instruction slide-rule. Steel chest has two full compartments, each enclosing foam plastic tray for neat permanent storage. Also has outer sleeve with brilliant full-color illustration on each side. Complete instruction manual. Packed 3 per carton, shipping weight 30 lbs. Box, closed, 18¼″ x 14⅝″ x 3¼″.

REPLACEMENT OR REFUND TO CONSUMER

So much more in Chemistry for '64! Gilbert offers the most complete and varied line of sets in many years, with plenty of emphasis on basic chemical experiments, plus many exciting "make and do" features—all designed for complete safety.

No. 12086 GILBERT CHEMISTRY LAB. A world of basic chemistry, PLUS electro-plating, brush plating, gold plating, color analysis with Electro-Chem-Rotor, studying fluorescence with Black Light "gun" and many other projects. 5-color display carton encloses permanent steel 2-section cabinet. Complete instruction manual. Packed 3 per carton, shipping weight 35 lbs. Box, closed, 18⅛" x 14¾" x 5⅞".

No. 12087 CHEMISTRY OF THE SPACE AGE. Grow plants spaceship style in tanks without soil with safe atomic-irradiated seeds! Stimulate astonishing speed of growth with new miracle plant nutrients! Study effects of over-balanced plant food! Analyze and mix chemicals with new Electro-Chem-Rotor! Make fluorescent dies and inks, then study them with "Black Light". . . just a few of this set's fine features. Also included: a wealth of basic chemistry experiments. 3-section steel cabinet. Big illustrated instruction manual. Packed 1 per carton, shipping weight 16 lbs. Box 18⅝" x 15" x 5¾".

No. 12088 CHEMISTRY — ADVANCED RESEARCH LAB. Steel cabinet opens out to 6 feet, holds the ultimate in chemistry sets designed for young researchers, 12 to 16, with scientific bent. Do many high school chemistry experiments including: Electro-Chemistry, Qualitative and Quantitative Analysis, Metallurgy, Chromatography. Set includes professional-type equipment such as Electro-Chem Rotor, "Black Light" Gun, Electroplating Brush, Erlenmeyer Flask, Crucible, Ring Stand, Beaker, etc. Giant instruction book. Packed 1 per carton, shipping weight 23 lbs. Box 18⅝" x 15" x 7¼".

GILBERT

METAL ELECTRIC

MICROSCOPES

NEW!

No. 13107 GILBERT MICROSCOPE. New metal instrument magnifies 75 times actual size, features both separate reflector and an electric illuminator (which plugs into regular household A.C. outlet) for both above and below stage lighting. Includes test slide for immediate observation plus extra glass slide. Foam plastic tray, for neat permanent storage, is enclosed in outer case with large full color illustration on one side, clear acetate window on the other. Packed 12 per carton, shipping weight 24 lbs. Package size: 12½" x 8½" x 3".

- **75 POWER**
- **ALL-METAL**
- **PLUG-IN ILLUMINATOR for above or below stage lighting**

No. 13102 MICROSCOPE AND LAB SET. New metal microscope has triple turret offering choice of 60, 90 or 475-power magnification. Set features new Protozoa Pack and Growth Chamber. Observe lowest form of single-celled animal life grow and reproduce, at any time of year! New modular component rack for easily accessible storage. Plug-in A.C. lighting for use above or below stage. Colorful package, with clear window on one side, large full color illustration on the other, is 11" x 14½" x 3½". Packed 12 per carton, shipping weight 31 lbs.

MICROSCOPES

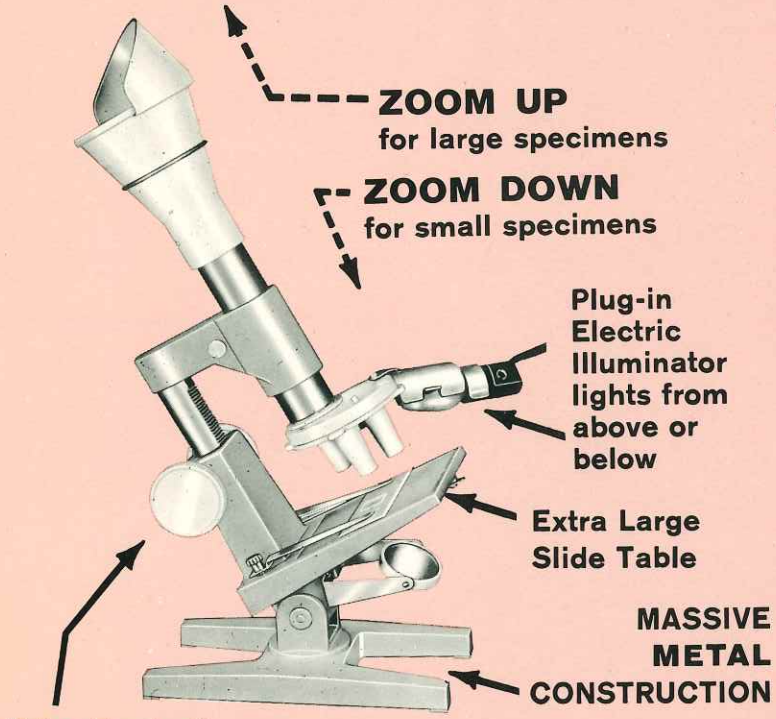
No. 13103 ZOOM MICROSCOPE AND LAB SET. Massive metal instrument has 75, 250 and 500 power magnification, zooms down for small objects and slides, zooms up for larger specimens. Entire optical system shifts around to opposite side for viewing large objects. Packaging includes 5-color outer carton, inner metal case with heavy clear plastic window that slides out to become safe, tidy working surface on which you attach new equipment module. Set also features new Protozoa Pack with special Growth Chamber. Plug-in A.C. lighting. Packed 6 per carton, shipping weight 33 lbs. Package size: 14⅝″ x 11⅛″ x 4″.

No. 13104 ZOOM MICROSCOPE AND LAB SET. Heavy die-cast metal instrument has quadruple lens turret with magnifying powers of 100, 250, 500 and 1000 times actual size. It has zoom feature, group viewer, and precision optical system that may be shifted to side opposite slide table for viewing unusual rocks, etc. Steel cabinet has clear plastic window that slides out to become handy work surface on which you attach 3 modules containing specimens, apparatus, glass slides, shrimp eggs, etc. Set also has Protozoa Pack and Growth Chamber. Plug-in A.C. lighting. Full color outer carton. Packed 3 per carton, shipping weight 22 lbs. Package size: 18¼″ x 14¾″ x 4⅛″.

GILBERT

METAL ELECTRIC

MICROSCOPES



EXCLUSIVE! Optical system shifts around 180° to view large objects

No. 13105 ZOOM MICROSCOPE AND LAB SET. A complete Microscope lab that features massive metal instrument with precision lens system — 75, 250 or 500-power magnification — famous Gilbert zoom feature, ability to shift to side opposite slide table when viewing extra large objects, *both* bi-ocular and monocular eye-pieces, plug-in A.C. lighting. Set includes 4 equipment modules crammed with specimens, equipment and apparatus, stains, dissecting needles, etc. Heavy clear acetate window in steel cabinet slides out to become tidy work surface to which modules may be conveniently attached. Also includes: Protozoa Pack and Growth Chamber, polarizing filters. 5-color outer display carton is 18" x 14¾" x 4". Packed 3 per carton, shipping weight 24 lbs.

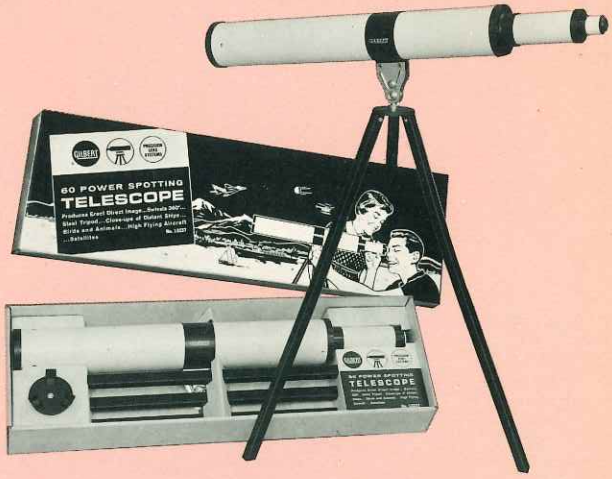
GILBERT®

PRECISION LENS SYSTEMS

TELESCOPES

No. 13236 40-POWER SPOTTING TELESCOPE — Refracting telescope with steel tripod mount and precision lens system that produces upright image, is perfect for viewing such objects as flying aircraft, ships at sea, distant birds, animals or people. Swivels 360°; can be locked in any position. Box is 31¾" x 8½" x 2½", with 2-color illustration on bottom for display (as shown). Packed 3 per carton, shipping weight 21 lbs.

NOTE: Both No. 13236 and 13237 are shrink-wrapped for high-visibility pilfer-proofing.



No. 13237 60-POWER SPOTTING TELESCOPE — Produces an upright direct image and has 60-power magnification. Stands on steel tripod and swivels 360°; locks into any position desired for steady viewing. Ideal for observations of land, sea or air objects. Box is 30¾" x 10" x 3⅝". As Illustrated, bottom has big picture in 2 colors for display. Packed 3 per carton, shipping weight 21 lbs.

80-POWER Reflecting TELESCOPE
with 26 INCH STEEL TRIPOD and HEAVY DIE-CAST BASE
Precision Rack and Pinion Focusing with Finger-Touch Control...Swivels Full 360°

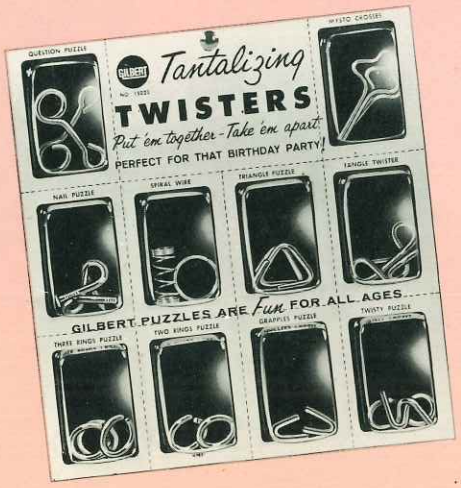
No. 13214 80-POWER DELUXE ASTRONOMER'S TELESCOPE with Sun Viewer — Brings exciting close-ups of moons and planets. Sharp, clear field of view, positive focusing. Sun Viewer attachment permits observations of Old Sol in perfect safety. Handsome simulated leather case with zipper, 27¾" x 9" x 3½". Packed 2 per carton, shipping weight 13½ lbs.

GILBERT®

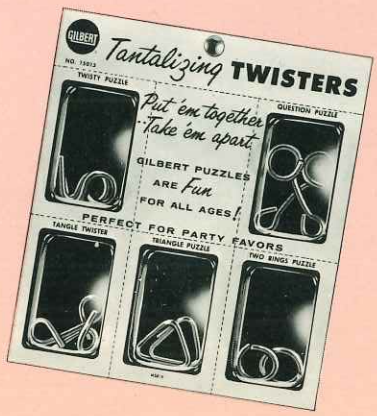
FAMILY FUN

PUZZLES

No. 15023 — New, attractive set has each heavy-gauge metal twister under separate bubble on card, with solution on back of each so puzzles may be cut apart for individuals. Size of card, 9¼" x 9½". Packed 12 per carton, shipping weight 4 lbs.



Tantalizing
TWISTERS
Put 'em together - Take 'em apart
PERFECT FOR THAT BIRTHDAY PARTY!
GILBERT PUZZLES ARE Fun FOR ALL AGES

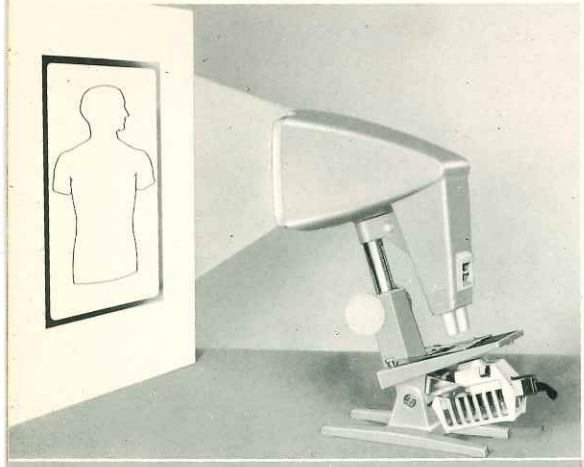


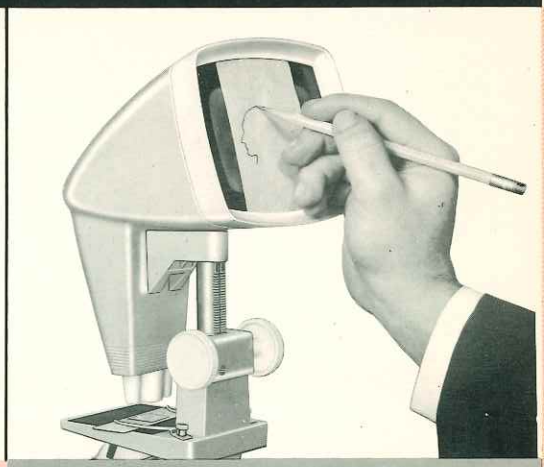
No. 15013 — Perennially popular metal twisters are now individually bubble-packed on heavy card with solutions on back. Size of card, 7" x 7½". Packed 24 per carton, shipping weight 4 lbs.

GILBERT

PROJECT THE WONDERS OF THE MICROSCOPE WORLD

MICOLOGY





No. 13134 MICOLOGY — Water Wonders* Lab — For use with Micro-Projector or Microscope, or independently, featuring study of marine life. Specimens include crayfish and frog. Dissecting equipment, stand, tray, magnifier, slides, color transparencies, Protozoa Pack and Growth Chamber, shrimp eggs, etc. Full color carton. Packed 3 per carton, shipping weight 8 lbs.

New MICRO-PROJECTOR

PATENT D-1974-19

Most versatile instrument in the Science Toy field!

They said it couldn't be done, but here it is, the ingenious new Gilbert Micro-Projector with exciting features no science toy has ever offered before: (1) Direct viewing of enlarged image on frosted screen for tracing or analysis by several people at once; (2) Projection of enlarged image on wall, screen, drawing pad or any convenient area; (3) Enlarging and projecting *either* opaque objects (with light above) such as biology specimens, stamps, coins, or regular glass slides and transparencies with sub-stage lighting; (4) Remove entire optical system and position it on opposite side to view very large objects!

MICOLOGY

Unique new science sets that combine many fields into one: Biology, geology, mineralogy, microscopy — with a superb new optical instrument whose wide versatility takes it far beyond the toy field!

*Trade Marks

No. 13135 MICOLOGY — Land Lore* Lab — For use with Micro-Projector or Microscope or independently, for study of land life. Biological specimens: earthworm and huge lubber grasshopper; also butterflies, fossils, etc., glass slides, color transparencies, professional dissecting equipment. "Picture-window" carton in full color. Packed 3 per carton, shipping weight 8 lbs.

No. 13136 MICOLOGY — Micro-Projector Set — Project either opaque items — biology specimens, stamps, coins, etc. — or regular glass slides, magnified 5, 20 or 60 times. Far more than a toy, it has countless uses such as an aid in science homework, an instrument for collectors in many fields and all ages. Package has window and full color illustration. Packed 1 per carton, shipping weight 6 lbs.

No. 13137 MICOLOGY — Micro-Projector Lab Set — Includes the amazingly versatile new Gilbert Micro-Projector **plus** a large assortment of professional quality specimens and equipment: huge lubber grasshopper, crayfish, dissecting kit, laminated slides, 4-stage full-color transparencies, dissecting tray, etc. Package has window and full-color illustration. Packed 1 per carton, shipping weight 7 lbs.

GILBERT

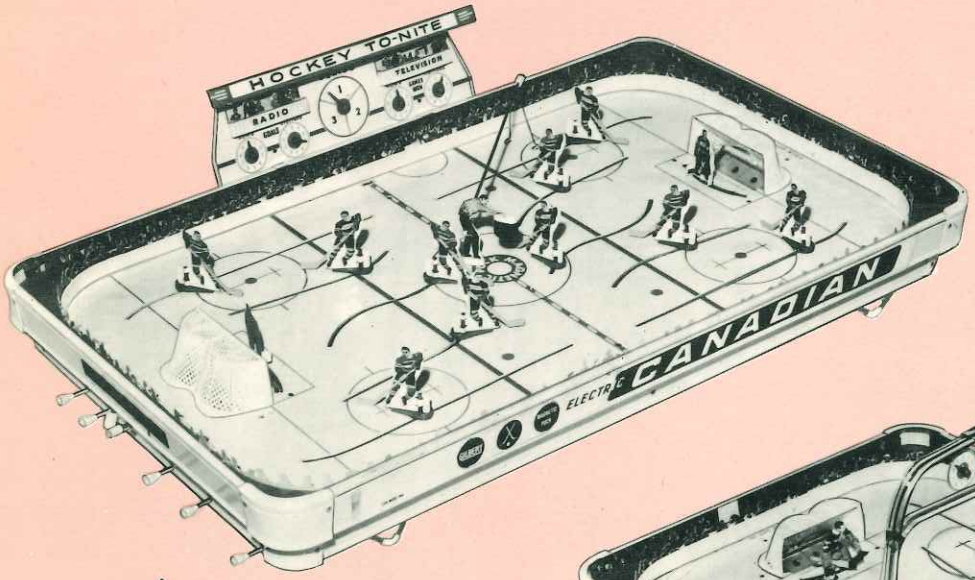
FAMILY FUN GAME

HOCKEY

NEW SETS..NEW FEATURES FOR '64!

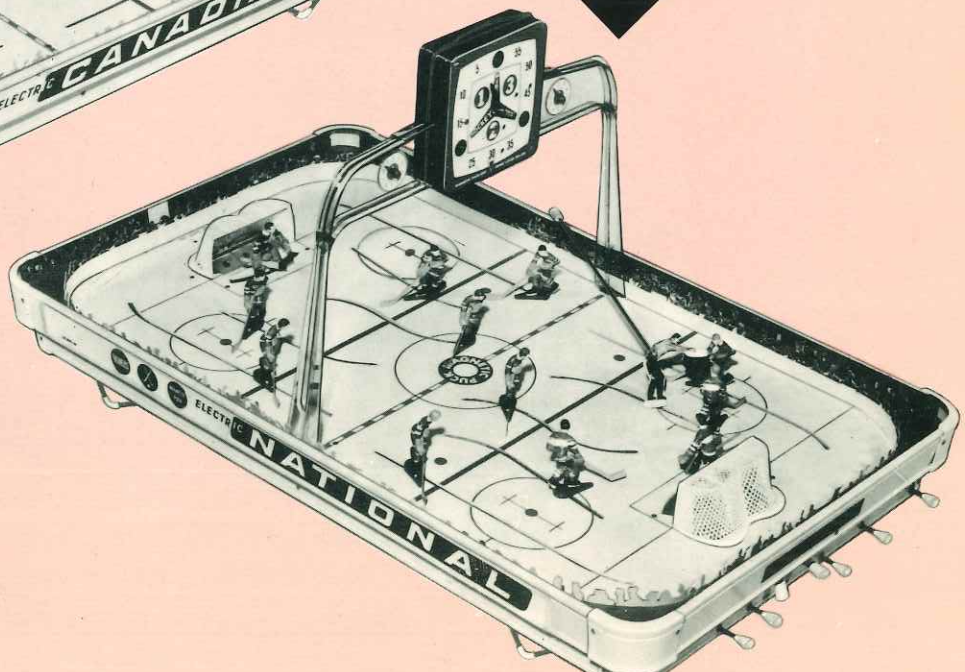
No. 14311 HOTSHOT HOCKEY GAME — The hockey "men" move along the "ice" and diagonally across on a play pattern designed for very fast passing and scoring play. Has rugged **Dyna-Drive** steel gears for positive, non-slip action. Equipped with two full teams. Regular puck included. Size is approximately 30" x 16". Packed 1 per carton, shipping weight 8 lbs.

No. 14312 ALL-STAR HOCKEY GAME — Real hockey game excitement as the "men" move down the "ice" and also diagonally, scoring and passing. Has wrap-around window shields at ends and big score panel at side. Two full teams and puck included. Non-slip control with quality steel **Dyna-Drive** gears. Size about 30" x 16". Packed 1 per carton, shipping weight 8 lbs.



No. 14313 CANADIAN ELECTRIC HOCKEY GAME — A king-size game with both "S" shaped and curved slots for real skating action. Features famous patented **Magnetic Puck** for superb stick handling, also plain puck; **Automatic Red Goal Light: Shooting Goalie** can clear down the "ice" or pass to defense men. New, realistic "3-D" crowd surrounds entire rink, with new side board completely encircling rink for bounce-passing. Side panel score board. New fold-down legs raise game 3 inches to provide easier handling of play rods. Positive **Dyna-Drive** steel gears. Uses 2 "D" batteries (not included). Size approximately 38½" x 21". Packed 1 per carton, shipping weight 11½ lbs.

No. 14314 NATIONAL ELECTRIC HOCKEY GAME — A really deluxe set that has the exciting new features of the No. 14313, except Automatic Clock Timer and scoreboard are supported over rink on clear plastic super-structure. In addition, has new 3-D plastic players with separate sticks. Automatic signal sounds at end of each period. Size is approximately 38½" x 21". Uses 2 "D" batteries (not included). Packed 1 to carton, shipping weight 12 lbs.



FUN IN SCIENCE

THERE'S A WORLD OF "MAKE" AND "DO" in this new Gilbert line of FUN IN SCIENCE – endless fascinating hours of profitable projects in electronics, electricity and physics. Every set is in a brand new pilfer-proof, high-visibility, self-sell package.

No. 15056 FUN IN SCIENCE with Electricity—Learn safely—and with fun why electricity behaves as it does! Make a rheostat, make a battery, make an electromagnetic crane, use compass in magnetism research, etc. Safety-tested—use dry cell battery power. Completely new package gives high visibility plus complete pilfer-proofing. Packed 4 per carton, shipping weight 10 lbs.

No. 15057 FUN IN SCIENCE with Physics — Easy-to-follow experiments show what happens when certain conditions occur in dynamics, light, optics, fluids and air and water pressures. Safety tested! For boys and girls 10 and up. Laws of physics come alive through fun-to-perform experiments. Packed 6 per carton, shipping weight 29 lbs.

No. 15058 FUN IN SCIENCE with Physics. Crammed with parts, equipment, apparatus for hours of fun — experiments in Solar Heat, Optics, Air and Water, Light Bending, Fluid Dynamics pressure. Includes: radiometer, parabolic reflector, polarizing filters, optical bench, beaker, illuminator, etc., etc. Packed 2 per carton, shipping weight 10 lbs.

No. 15059 FUN IN SCIENCE with Erec-Tronics — Build any one of 9 different electronic circuits in 10 minutes — or less — without tools, solder or technical skill! Just follow "road map" templates and use snap-on jiffy clips for connections, to make broadcasting station, various transistor radio receivers, code practice set, etc. — all fully operational with safe dry cell power (batteries not included). Packed 3 per carton, shipping weight 9 lbs.

GILBERT

MAKE DELICIOUS DESSERTS

MY MIXER

TRADEMARK

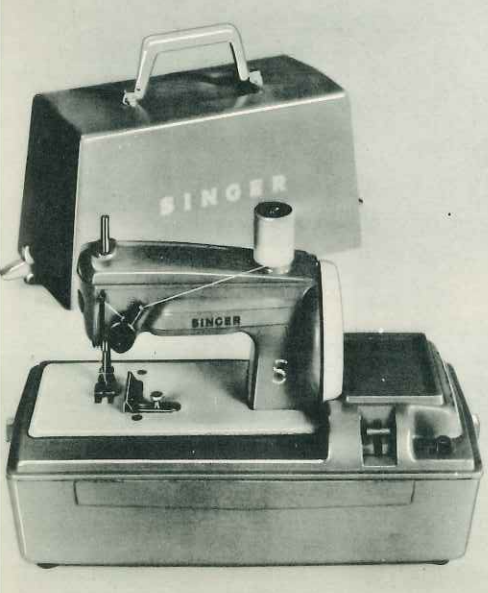
No. 14001 MY MIXER — Now little daughter can make the dessert (for real!) with this new Gilbert Toy that's so much more than a toy! It's an actual hand-operated mixer, complete with bowl, safe nylon beaters and a unique proportioning scale that lets daughter easily and quickly measure the ingredients for cold desserts (16 party dessert recipes illustrated in full color included). New and unique, with steel and plastic parts that are easily disassembled for washing. Set also includes cat, clown and horse shaped molds to pour desserts into for chilling, plus a combination spatula, server and cutter. Easy, safe and fun for any little girl. The end result is an actual tasty dessert the whole family can enjoy! Packed 4 per carton, shipping weight 22 lbs.

GILBERT

Sewhandy

SINGER

SEWING MACHINES



No. 14325

No. 14325

"SEWHANDY" ELECTRIC — A real little electric sewing machine that makes a perfect chain stitch. Presser foot acts as finger guard. The electric motor (plugs into 115 volt household A.C.) frees the right hand for more advanced sewing — and it's faster. Sleek metal machine with handy carry-case for storage. Complete with special sewing kit that includes material, patterns, thread, appliques and complete instructions for making colorful clothing bag. Packed 3 per carton, shipping weight 26 lbs.

No. 14323 "SEWHANDY" — Has all the exciting features of the No. 14325 machine, but is manually operated. Includes special sewing kit with complete instructions for making apron. Packed 3 per carton, shipping weight 21 lbs.

PATENT OFFICE

NEW FOR '64!

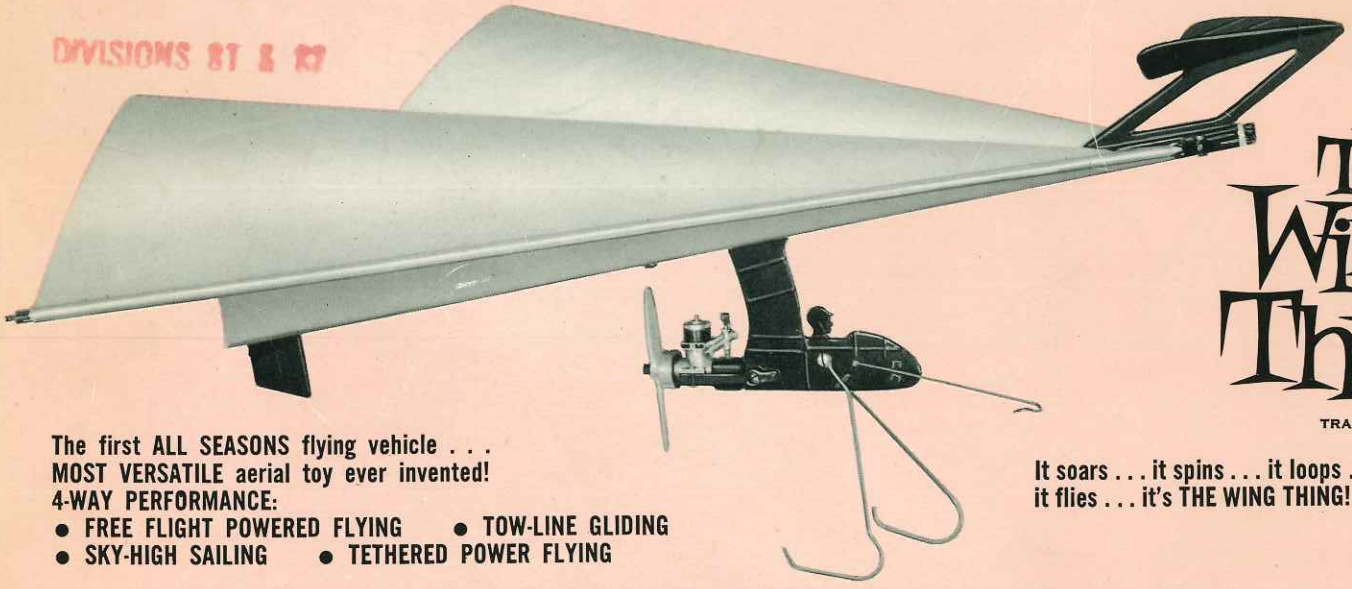
NO. 40035

SON OF WING THING

YOU'LL BE ASTONISHED at the performance of this brand new flyer from Gilbert. Just wind up the propeller (powered by heavy rubber bands) and let 'er go! She'll glide and soar — even climb, sometimes as high as 50 or 75 feet, depending on rising air currents — then, when the bands are unwound, she sails to earth for a soft landing. "Wing-on-wing"-type stabilizer, as in the original Wing Thing, gives it that extra buoyancy and keeps the craft from nose-diving. Son of Wing Thing is easy to fly — designed for many successful flights under normal conditions. It's constructed of balsa wood, metal and paper, with plastic pusher propeller. Wing is 22" long, with 29" spread. Packed 48 per carton, shipping weight 10 lbs.

(PATENTED AND PATENTS PENDING)

DIVISIONS 81 & 82



The Wing Thing

TRADEMARK

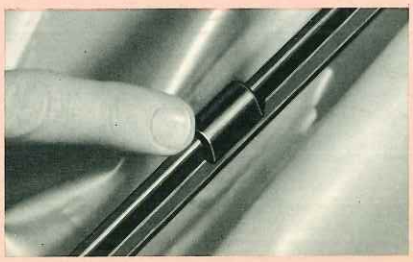
The first ALL SEASONS flying vehicle . . .
MOST VERSATILE aerial toy ever invented!
4-WAY PERFORMANCE:

- **FREE FLIGHT POWERED FLYING**
- **TOW-LINE GLIDING**
- **SKY-HIGH SAILING**
- **TETHERED POWER FLYING**

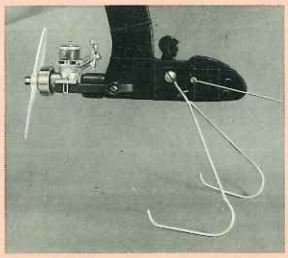
It soars . . . it spins . . . it loops . . . it glides . . . it flies . . . it's THE WING THING!

No. 40024 Wing Thing — Simple in construction, virtually crash-proof under normal conditions, The Wing Thing consists of a flexible plastic wing, 36" long with 52" spread and a light fuselage on which is mounted a powerful .074 Thunderhead engine. Packed 4 per carton, shipping weight 12 lbs.

No. 40026 Wing Thing — Same as No. 40024 but with Starter Accessory Kit of battery, fuel and all equipment necessary to start engine, plus extra glow head. Packed 4 per carton, shipping weight 14 lbs.



You change flight characteristics to suit yourself by adjusting a counter-weight on the fuselage.



Fuselage and landing gear, with rugged powerful .074 Thunderhead engine.

"Wing-on-wing" construction prevents any nose dive, provides extra buoyancy.

U.S. Patent No. 2,537,560 and Patents Pending
